

Now in the Online Resource Center at Family.org

Recently, we revised the list of titles available as benevolent resources from Focus on the Family for Pregnancy Resource Centers and Maternity Homes.

However, we know that topics such as Marriage, Parenting, post-abortion studies, and STDs are very much needed by your ministry, and we wanted you to know that you can now purchase these in our online resource center in packs of 25 brochures at Family.org.

Note that the item codes are for packs of 25 booklets of the same title, not the item code on the back of the booklet.

Click on the title to go directly to the online resource center
